CONTENTS

No. 1, February 1996

PAGE

Mirosława Z. Barciszewska, Volker A. Erdmann and Jan Barciszewski. Ribosomal 5S RNA: Tertiary structure and interactions with proteins . 1

David L. Stern and William A. Foster. The evolution of soldiers in aphids 27

David P. Knight, Dian Feng and Murray Stewart. Structure and function of the selachian egg case 81

Mats Svensson. Sexual selection in moths: the role of chemical communication 113

Jacqueline M. Skeer, Robert I. Norman and David B. Sattelle. Invertebrate voltage-dependent calcium channel subtypes 137

No. 2, May 1996

J. G. Boal. A review of simultaneous visual discrimination as a method of training octopuses 157

Peter Convey. The influence of environmental characteristics on life history attributes of Antarctic terrestrial biota 191

John E. Brecknell and James W. Fawcett. Axonal regeneration . . . 227

Peter Andrews. Palaeoecology and hominoid palaeoenvironments . . . 257

Brian Moss, Penny Johnes and Geoffrey Phillips. The monitoring of ecological quality and the classification of standing waters in temperate regions: a review and proposal based on a worked scheme for British waters 301

No. 3, August 1996

N. Mrosovsky. Locomotor activity and non-photic influences on circadian clocks 343

George E. Heimpel and Timothy R. Collier. The evolution of host-feeding behaviour in insect parasitoids 373

Wendy Wright and Julian F. V. Vincent. Herbivory and the mechanics of fracture in plants 401

Ann B. Lockhart, Peter H. Thrall and Janis Antonovics. Sexually transmitted diseases in animals: ecological and evolutionary implications. 415

D. G. Parbery. Trophism and the ecology of fungi associated with plants . 473

No. 4, November 1996

William James Murdoch. Ovarian surface epithelium, ovulation and carcinogenesis 529

Robert Mosimann, Hans Imboden and Dominik Felix. The neuronal role of angiotensin II in thirst, sodium appetite, cognition and memory . . 545

R. J. C. Cannon. *Bacillus thuringiensis* use in agriculture: a molecular perspective 561

Alison Baker, Claude P. Kaplan and Martin R. Pool. Protein targeting and translocation: a comparative survey 637

INDEX OF AUTHORS

Andrews, P. Palaeoecology and hominoid palaeoenvironments . . . 257

Baker, A., Kaplan, C. P. & Pool, M. R. Protein targeting and translocation: a comparative survey. 637

Barciszewska, M. Z., Erdmann, V. A. & Barciszewski, J. Ribosomal 5S RNA: tertiary structure and interactions with proteins 1

Boal, J. G. A review of simultaneous visual discrimination as a method of training octopuses 157

Brecknell, J. E. & Fawcett, J. W. Axonal regeneration 227

Cannon, R. J. C. *Bacillus thuringiensis* use in agriculture: a molecular perspective 561

Convey, P. The influence of environmental characteristics on life history attributes of Antarctic terrestrial biota 191

Heimpel, G. E. & Collier, T. R. The evolution of host-feeding behaviour in insect parasitoids 373

Knight, D. P., Feng, D. & Stewart, M. Structure and function of the selachian egg case 81

Lockhart, A. B., Thrall, P. H. & Antonovics, J. Sexually transmitted diseases in animals: ecological and evolutionary implications . . . 415

Mosimann, R., Imboden, H. & Felix, D. The neuronal role of angiotensin II in thirst, sodium appetite, cognition and memory 545

Moss, B., Johnes, P. & Phillips, G. The monitoring of ecological quality and the classification of standing waters in temperate regions: a review and proposal based on a worked scheme for British waters 301

Mrosovsky, N. Locomotor activity and non-photic influences on circadian clocks 343

Murdoch, W. J. Ovarian surface epithelium, ovulation and carcinogenesis . 529

Parbery, D. G. Trophism and the ecology of fungi associated with plants . 473

SKEER, J. M., NORMAN, R. I. & SATTELLE, D. B. Invertebrate voltage-dependent calcium channel subtypes 137
STERN, D. L. & FOSTER, W. A. The evolution of soldiers in aphids. . . . 27
SVENSSON, M. Sexual selection in moths: the role of chemical communication 113
WRIGHT, W. & VINCENT, J. F. V. Herbivory and the mechanics of fracture in plants 401

EDITORIAL COMMITTEE

A. BALMFORD (Conservation Biology)
M. D. BRAND (Biochemistry)
J. BROWN (Physiology)
B. A. CALLINGHAM (Pharmacology)
J. A. CLACK (Palaeontology)
A. R. ENNOS (Biomechanics)
M. J. EVANS (Genetics)
W. A. FOSTER (Zoology)
D. E. HANKE (Botany)
D. S. INGRAM (Plant Pathology & Mycology)
J. P. LUZIO (Clinical Biochemistry)
J. D. MOLLON (Experimental Psychology)
P. D. MOORE (Ecology)
T. W. ROBBINS (Neuroscience)
P. C. WITHERS (Comparative Animal Physiology)
